

Install Guide

A weekend project, not a contractor project.

Nine illustrated steps. Two days. One drill.

Pin this on the wall, bring it up the ladder, finish the install.

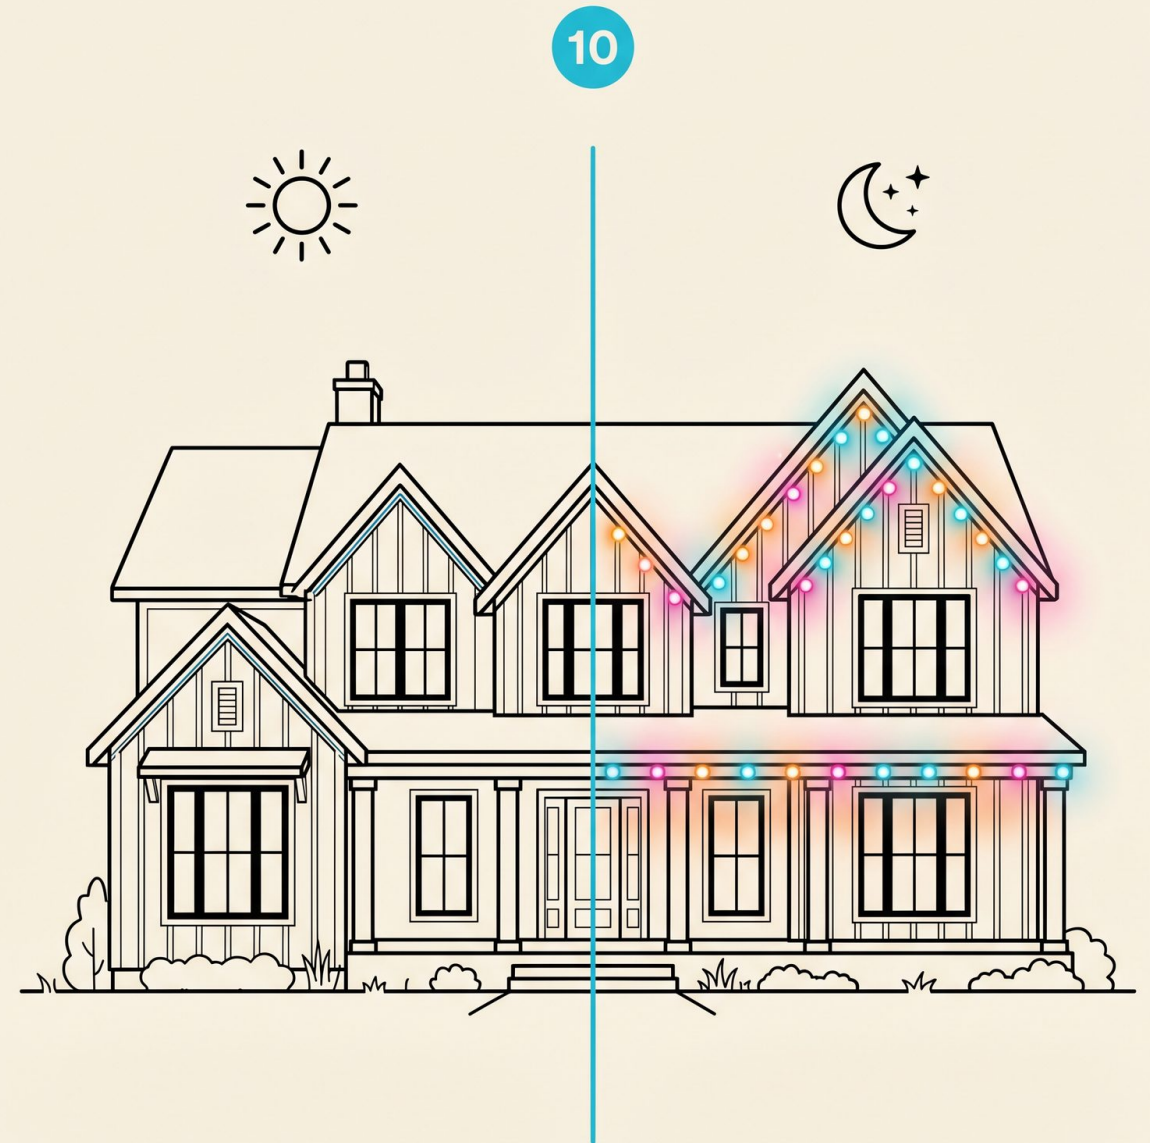

Track only. Govee® lights, power supply, controller, and Govee Home app are sold separately by Govee.

What you need
GeauxTrax kit + your Govee lights + a few tools.

Track only. Lights sold separately by Govee.

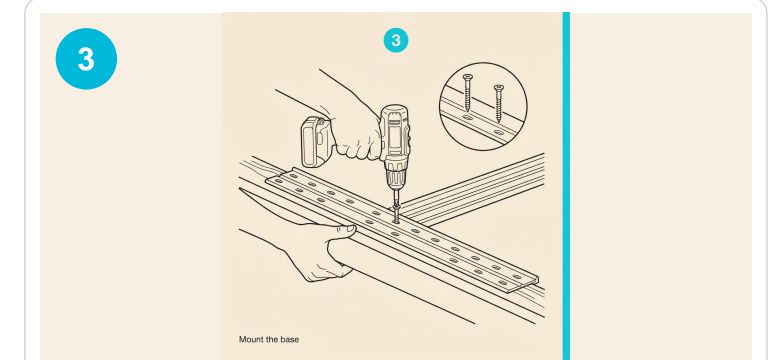

Unbox the track
Base strips, PETG covers, end caps, spec sheet.

Track only. Lights sold separately by Govee.

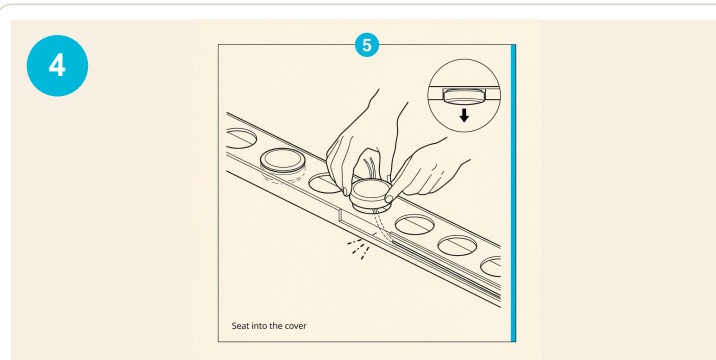

Measure and mark
Snap a chalk line 1" below the drip edge. Mark every screw.

Track only. Lights sold separately by Govee.

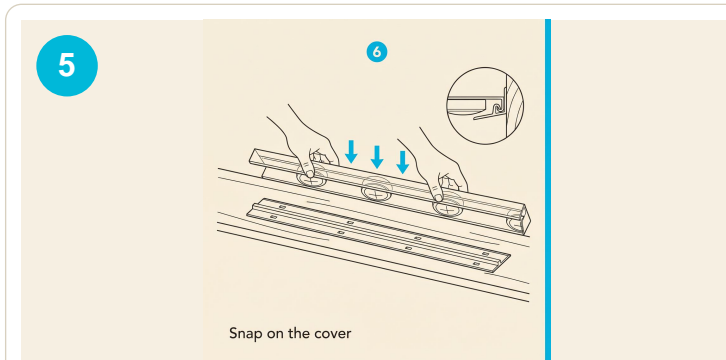

Mount the Screen Tight base
Drive screws through the pre-punched slots in the base strip.

Track only. Lights sold separately by Govee.

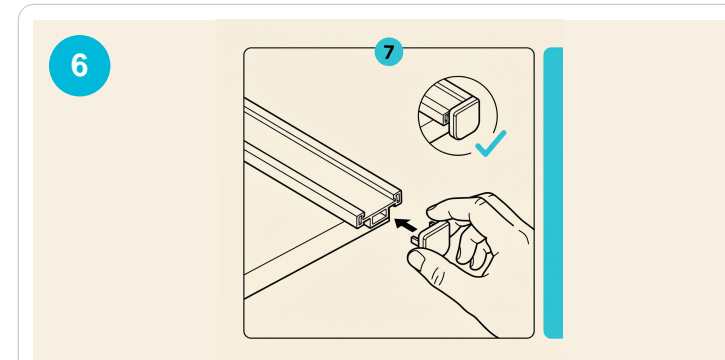

Seat pucks into the cover
Press each Govee puck into a circular cutout in the PETG cover, lens down.

Track only. Lights sold separately by Govee.

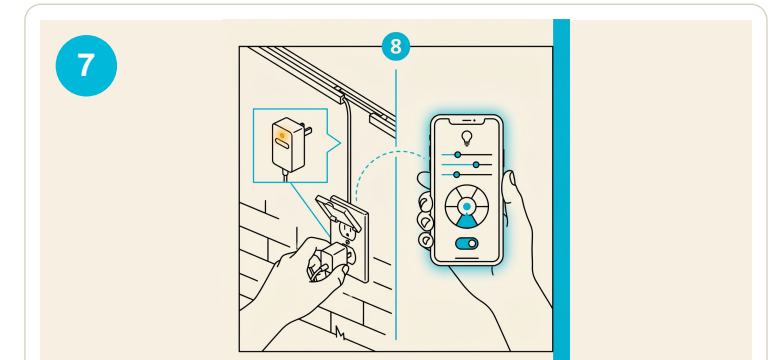

Snap the cover onto the base
Press the loaded PETG cover down onto the base. It locks over the centered ridge.

Track only. Lights sold separately by Govee.

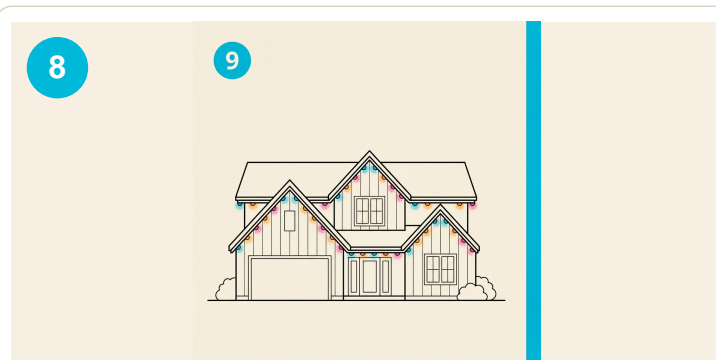

Cap the open ends
Snap a finishing end cap on every open run. Weather-tight.

Track only. Lights sold separately by Govee.

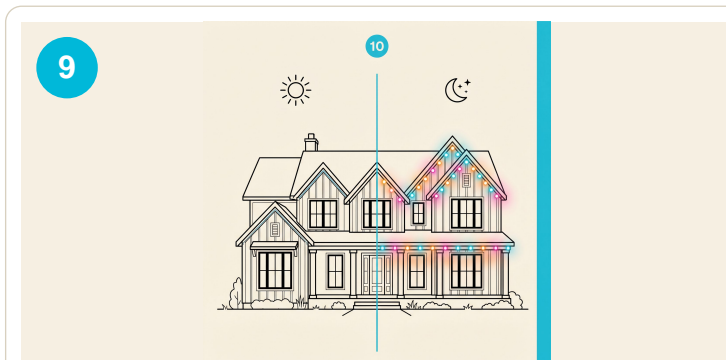

Plug in and pair
Plug the Govee adapter into a sheltered GFCI. Pair with the Govee app.

Track only. Lights sold separately by Govee.

Finished install
Wires hidden. Track barely visible. Ready for the Govee app.

Track only. Lights sold separately by Govee.

Day vs. night
Day: clean trim. Night: the full multicolor show along the roofline.

Track only. Lights sold separately by Govee.
